Finding a TEFL Job

Why do employers love i-to-i TEFL courses?

Employers love i-to-i TEFL courses because they produce confident, skilled teachers who really know their way in the TEFL classroom. Let's find out why thousands of language schools worldwide prefer to hire i-to-i trained teachers!

"The i-to-i graduate we recruited has now stayed with us for 3 school terms - that's a year and a half. His commitment in teaching and his helpfulness with new teachers has been astounding. The school he teaches at definitely has made him their favourite teacher and if all our recruits were like him we would please every school we contract our teachers to. He is organised, knows his teaching methods well and we hope he will stay with us for years to come."

Mike Maitland, Managing Director of Echo English School, Thailand

"I think i-to-i work really hard to prepare their graduates for the realities of teaching English abroad. This could be things like teaching with limited resources or teaching very large classes. It can be difficult when faced with a classroom situation that is different from what you expect and I think the knowledge and advice that can be obtained through doing one of their TEFL courses can be extremely helpful in preparing for these hurdles. There are very few other courses that are as comprehensive which is one of the main reasons we like to work with i-to-i graduates!"

Claire Negus, Managing Director, ESLstarter

"The i-to-i graduates we have interviewed and hired over the years for our schools in China can always be counted on to deliver exceptional lessons. The courses offered by i-to-i cover not only in depth teaching methodology, classroom techniques and practical activities but also incorporate videos from real life classroom situations. We have found that teachers graduating from the i-to-i courses adapt quickly to the classroom environment and demonstrate solid teaching skills from the moment they first step into the classroom. They are able to build a strong rapport with their students and deliver engaging, varied and communicative classes to students of all ages. It is for these reasons we turn to i-to-i for our hiring needs and have complete confidence that their teachers will do a fantastic job inside the classroom."

Jim Althans, Director of Recruitment, Gold Star Teachers

TEFL Interviews

Jess Watson

Why did you decide to start teaching English?

I chose to teach English because as a recent graduate, I was dismayed by the job market and the lack of opportunities for young people with little experience. I was also eager to travel the world and the allure of being able to do so, while making good money, was too much to turn my back on. It also has given me the ability to give back to the world community; being abroad really makes you realise how fortunate we are to have grown up in Western countries and to have English as a first language.

Did you do a TEFL course before you started teaching?

Yes, I did a Professional TEFL course with i-to-i.

Where are you teaching?

Phnom Penh, Cambodia, but I've just finished a year of teaching in Thailand too!

What attracted you to TEFL?

The opportunities it would give me to work, travel and gain experience in the 'real world'.

What age of kids/ adults are you teaching?

I taught/ teach mainly pre-school, kindergarten and lower grades (1,2,3,4)

What are they like?

Most of them are eager to learn and all of them are a bit cheeky at times. It's really humbling when you see how much progress a 6 year old kid makes in such a short period of time, or when an 11 year old talks to you about the environmental adaptations. We all remember how draining school became when we were young kids, but now as the

teacher, you need to be a positive motivator for them and you would be surprised how a quick game and some stickers perks them up!

How are you finding the experience?

I find it exciting, tiring, empowering, humbling and overwhelming. It is always nerve wracking the first day in the classroom, but after a few days your confidence grows and before you know it you have a groove and the kids are adjusting to you and suddenly it dawns on you that, "hey, I'm really doing this teaching thing!". It's been a great experience and I know it has shaped me into the person I am today.

How would you rate the experience out of 10?

10

What would be your advice for someone thinking of TEFLing?

Do it. I know you are worried about the culture-shock, the classroom, the students and mostly, the fear of failure; I was too, but I took the plunge and you should too. I really like the quote, "Leap and the net will appear" and it illustrates perfectly how people should approach TEFLing. It's an adventure of a lifetime and I promise you won't regret it.

Kevin Byrne

Why did you decide to start teaching English?

I was emigrating to Argentina with my family because of the economic situation at home. My wife is from Argentina, so the move is permanent.

Did you do a TEFL course before you started teaching?

Yes, I did a Professional TEFL course with i-to-i.

What attracted you to TEFL?

With the downturn in the economy, I decided to do the Classroom TEFL Course while we discussed moving to Argentina so I could teach English in Buenos Aires where my partner lived.

Where are you teaching?

Buenos Aires, Argentina

What age of kids/ adults are you teaching?

Adults in their 20s, 30s and 40s.

What are they like?

They tend to be well educated and want to increase their knowledge of English, all of them at different stages of development. Good enthusiastic people who want to learn. No shy ones yet.

How are you finding the experience?

I seem to be good at it and flow naturally into the lesson, reading the students' needs and providing for them. I really enjoy it which surprised me because writing seriously is a lonely experience so I was wondering what it would be like with people. The experience turned out great.

How would you rate the experience out of 10?

10

Why?

The lesson is over before I know it and the students are obviously learning from the lessons as each time they come back, their knowledge and speaking ability in the language has improved.

What would be your advice for someone thinking of TEFLing?

Go for it without prejudice or preconceptions and you will know soon enough if it's for you. Do the Professional TEFL Course, where you'll get practical experience in front of a 'class'.
